You are not allowed to have on your person or on your desk any books, papers, cell phones, purses, or school bags during the test nor when we go over a graded test. For the tests leave your books/purses/cell phone along the walls in the classroom. Makeup quizzes/cases will not be given. If you miss a case/quiz, your grade will be zero.*

Assignments will not be accepted after the start of class since we will discuss them in class. GPA to Graduate: To obtain a business degree from UNO you need a 2.0 in the following categories: Overall, UNO, Business, **Major, and in Major at UNO.** You cannot repeat & delete once you have reached 60 hours.

Email: I may send important emails to you during the semester, so make sure you read your UNO emails. If you email me, use your UNO email and indicate the course number in your subject line and include contact phone numbers. Due to viruses, I do not read email if I do not recognize the sender, and I do not open attachments. Students must have Internet access to www.uno.edu and Moodle.

UNO ID: Bring a copy of your UNO ID to class for my seating chart and put your row & seat number. Bring UNO ID to class for the tests and final exam.

Bio: Type a brief bio on yourself **on Moodle:** for example, tell me something about yourself (whatever you are willing to share), why you chose UNO, your major, career objective(s), tell me something about your country (if not U.S.), how you are doing since Katrina/Isaac, how I can remember your name, what is the best advice that you have received, etc.

Micro Audit Case (1) Assemble the Micro, Inc. Audit Case by either printing out the Word and Excel files and assembling them in numerical order **or** you can print out the scanned copy of Micro, Inc.

(2) Teams will be assigned. The assigned portions of the Micro Audit Case are **due at the** start of the class.

(3) Bring a pocket folder, one per team. Place your assignments on my desk in the classroom—one per team. If not turned in at the start of class, no points will be given since we will be going over the assignment in class. You will work with a partner. Enter the hours work by each partner's name on the first page of assignment. In addition in order to receive credit, you must turn in with each part stating the hours work and how the work was distributed. Each partner is responsible for doing the work and should keep a copy of the assignment.

If you have a problem with your partner, talk to your partner first & try to resolve it (don't come to me first). If it is not resolved with your partner, both partners should come and see me. You will not receive credit if you have not adequately participated on the audit. Each partner must sign a separate time sheet indicating hours worked and stating that the partner participation is worthy of credit (place in envelope) at the end of the semester. This partner evaluation will be used in the assessment of your grade.

In addition to grading the audit case for effort, I will be assigning points for the completeness of the documentation and cross referencing of your work. See Tips Grading Guide Workpaper Documentation for Micro, Inc. and explanation of Tickmarks and Workpaper Relationships on Moodle. Each partner should keep track of the corrected adjusting general entries as we go over them in class, Each student will be individually

UNO's Academic Integrity Pledge: ***I pledge that I have completed the work I am submitting according to the principles of academic integrity as defined in the statement on Academic Dishonesty in the UNO Judicial Code.***

Excerpts from UNO's Academic Integrity Policy:

Academic honesty and intellectual integrity are fundamental to the process of learning and to evaluating academic performance. Maintaining such integrity is the responsibility of all members of the University. All faculty members and teaching assistants should encourage and maintain an atmosphere of academic honesty. They should explain to students the regulations defining academic honesty and the sanctions for violating these regulations.

However, students must share the responsibility for creating and maintaining an atmosphere of honesty and integrity. Students should be aware that personally completing assigned work is essential to learning. Students who are aware that others in a course are cheating or otherwise committing academic dishonesty have a responsibility to bring the matter to the attention of the course instructor and/or academic unit head, or the Assistant Dean.

Academic dishonesty includes, but is not limited to, the following:

Cheating: The act of deception by which a student who misrepresents mastery of information on an academic exercise. These acts can be either premeditated or not. Examples include: copying or allowing someone else to copy from another student, unauthorized use of a textbook or other material during an examination; inappropriate and unauthorized collaboration during an academic exercise; unauthorized use or possession of specially prepared materials during an academic exercise, such as notes or formula lists.

Plagiarism: The unacknowledged inclusion of someone else's actual words or paraphrases, ideas or data as one's own. This means that sources of information must be appropriately cited with footnotes or quotation marks and identified, whether published or unpublished, copyrighted or uncopyrighted.

Academic Misconduct: The actual or attempted tampering or misuse of academic records or materials such as transcripts and examinations. Examples are: stealing, buying, or otherwise obtaining all or part of an unadministered test or academic exercise; selling, bribing or giving away all or part of an unadministered academic exercise or any information about it; changing or altering a grade book, test, "drop form," or other official academic records of the University; unauthorized entry into a building or office for the purpose of changing a grade or tampering in any way with grades or examinations.

Falsification/Fabrication: The intentional use of false information or the falsification of research, findings, personal or university documents with the intent to deceive. Examples include citation of information not taken from the source indicated; listing sources in a bibliography not used in the academic exercise; inventing data or source information, submitting as one's own any academic exercise prepared totally or in part for/by another; taking a test for another student or permitting another student to take a test for oneself, submitting work previously used for credit in another course without express permission of the instructor; falsifying or misrepresenting oneself on resumes or other such documents or university related forms.

Accessory To Acts of Academic Dishonesty: The act of facilitating, supporting or conspiring with another student to commit or attempt to commit any form of academic dishonesty.

Tests: Asking others for information on a test before you have taken it as well as providing information about the test to others who have not yet taken it are both violations. I agree to not discuss the content of a test with anyone who has not taken the test.

**I understand that I could be subject to sanctions, including expulsion from the University and/or a permanent notation of having committed academic dishonesty being recorded on my transcript.
I have read and agree to abide by UNO's Academic Integrity Policy:**
