EDSP 5775-486: Test and Measurement for Individuals with Exceptionalities

Instructor: Linda Flynn, Ph.D. Linda.Flynn@uno.edu

Office Hours: Monday 1:00-4:30, Wednesday, 9:00-12:00

Phone: Dr. Flynn’s office phone number: 504-280-6541; Adobe Connect Phone Numbers: 504-280-6500 or 504-280-7247

Location/Time: Video Conferencing/Mondays: 4:30-7:15

Course Description:

The assessment process specific to children birth through 21 years old, and their families, will be examined. This course is designed to acquaint students with child identification, screening, diagnostic evaluation, curriculum-based assessment, ecological assessments, and individualized program planning processes. Students will be taught to match the purpose of the assessment with appropriate tools and processes; obtain valid, reliable and ecological information about the child and family; construct a cross-cultural assessment process; and interpret the assessment information for instructional planning, family support, and program reporting. The importance of family participation in the assessment process will be highlighted. Students will complete 25 hours of field work resulting in artifacts to document performance of the course competencies and impact on learning of children with disabilities. Topics will include the selection, administration and interpretation of a variety of observation, screening, evaluation and curriculum-based assessment tools for use with infants, toddlers, preschoolers, and school-age children and their families.

Required Textbook:

You can use an earlier version of this textbook (i.e., 3rd edition) if you desire since it will cost much less.

Video Conferencing Sessions:

All students are required to participate in all video conferencing sessions. If you are absent without an acceptable excuse, 5 points will be deducted from your overall score for each session missed. You are expected to be linked into Adobe Connect when the class begins.
Performance Objectives

The Division for Early Childhood (DEC) and the Council for Exceptional Children (CEC), the Louisiana State Standards, and the National Association for the Education of Young Children (NAEYC) has developed guidelines which are incorporated into the student learning outcomes described below. Teacher Candidates will demonstrate competencies in integrating Common Core State Standards in lesson plans, unit plans, and field-based activities. The content and experiences of this course align with the College of Education and Human Development conceptual framework and multiple professional standards, including the College of Education Unit Standards, Early Intervention Competencies, CEC Standards, and Common Core State Standards. For more information, refer to //coehd.uno.edu/educ/table_alignment.cfm

LiveText

All candidates in the initial certification M.A.T. (Master of Arts in Teaching) program in teacher education within the College of Education and Human Development (COEHD) are required to develop an electronic portfolio using LiveText. All candidates in such programs must purchase LiveText.
**Academic Integrity:**

Academic integrity is fundamental to the process of learning and evaluating academic performance. Academic dishonesty will not be tolerated. Academic dishonesty includes, but is not limited to, the following: cheating, plagiarism, tampering with academic records and examinations, falsifying identity, and being an accessory to acts of academic dishonesty. Refer to the Student Code of Conduct for further information: [http://www.studentaffairs.uno.edu](http://www.studentaffairs.uno.edu).

To ensure academic integrity, all students enrolled in distance learning courses at UNO may be required to participate in additional student identification procedures. At the discretion of the faculty member teaching the course, these measures may include on-campus proctored examinations, off-site or online proctored examinations, or other reasonable measures to ensure student identity. Authentication measures for this course are identified below and any fees associated are the responsibility of the student.

**Accommodations for Students with Disabilities:**

The Office of Disability Services (ODS) in conjunction with the Office of Academic Affairs campus wide administrative policy regarding the accommodations of students with disabilities, has two primary objectives: 1) to ensure compliance with Section 504 of the 1973 Rehabilitation Act and the Americans with Disabilities Act (ADA) in regard to equal access for qualified students to academic programs; and 2) to uphold the academic integrity of UNO. When these two objectives are met, those students who qualify for services based on clear, comprehensive, and relevant documentation will receive those services or academic modifications for which they are legally entitled.

It is University policy to provide, on a flexible and individualized basis, reasonable accommodations to students who have disabilities that may affect their ability to participate in course activities or to meet course requirements. Students with disabilities should contact the Office of Disability Services as well as their instructors to discuss their individual needs for accommodations. For more information, go to [http://www.ods.uno.edu](http://www.ods.uno.edu).

**College Mission:**

The mission of the College of Education and Human Development is to improve teaching and leadership, advance lifelong learning, and promote health and wellness through enhanced community partnerships. The unit’s purpose is to prepare reflective practitioners who develop, implement, and evaluate effective education and human development programs and services through a program of study grounded in the interaction of theory, practice, and research.

**Conceptual Framework:**

Our conceptual framework, the theory-practice-research interaction model, permeates the programs preparing candidates for professional roles in school settings. As candidates progress through their professional studies, they are introduced to formal theories and concepts that are validated by research, which along with their personally held beliefs and
assumptions, inform their professional practice. The roles and responsibilities set out the
broad domains for developing competence of teacher candidates viewed through the lens
of the theory-practice-research interaction model. As candidates engage in various
clinical and field experiences included in their program of study, observation and study of
professional practices inform and refine the educational theories and concepts they
construct. Our goal is to have our candidates internalize the theory-practice-research
interaction model, as they develop into reflective practitioners constantly reassessing the
educational theories, beliefs, and assumptions they embrace.

Objectives Alignment with Unit and State Standards
In addition to the identified goals and objectives, this course addresses UNO Teacher
Roles and Louisiana State COMPASS Standards.

</tr>
<tr>
<td>3. Setting instructional outcomes (COMPASS 1e)</td>
</tr>
<tr>
<td>4. Designing coherent instruction</td>
</tr>
</tbody>
</table>
5. Designing student assessments
6. Incorporating knowledge of diversity in the classroom
7. Planning for the use of technologies in curriculum and instruction
8. Demonstrating knowledge of resources, including technologies
9. Planning for the use of collaborative group practices in the classroom

B. They communicate effectively by:
   1. Incorporating effective written communication in the classroom
   2. Incorporating effective oral communication in the classroom

III. EFFECTIVE TEACHERS DELIVER INSTRUCTION AND ASSESS LEARNING
   A. They engage students in active learning (COMPASS 3c) by:
      1. Interacting effectively with students
      2. Demonstrating flexibility and responsiveness
      3. Integrating technology and other resources
   B. They integrate disciplines into instruction by:
      1. Applying connections to multiple disciplines
      2. Demonstrating connections to real life
   C. They use assessment in instruction by:
      1. Incorporating performance tasks in the classroom
      2. Using questioning and discussion techniques (COMPASS 3b)
      3. Using pre-assessment, formative assessment, and summative assessment appropriately (COMPASS 3d)
   D. They embed diversity in decision-making by:
      1. Selecting resources
      2. Delivering instruction
      3. Assessing learning

IV. EFFECTIVE TEACHERS PARTICIPATE IN PROFESSIONAL RESPONSIBILITIES
   A. They advocate for children, in terms of services and supports by:
      1. Communicating with families
      2. Demonstrating knowledge of resources in school and the community
   B. They collaborate to improve professional practice by:
      1. Engaging in a professional community
      2. Participating in professional development
      3. Collaborating with teachers and mentors
      4. Developing goals for social justice
      5. Using research-based practices that include current available technology
   C. They reflect on teaching and learning by:
      1. Focusing on cultural contexts and social justice
      2. Collecting and analyzing data to improve practice
Course Outline:

I. Assessment Overview
   a. Legislation guiding assessment procedures/policies
   b. Functions and purposes of assessment
   c. Identification and referral processes

II. Properties and Functions of Assessment Tools
   a. Properties/features of norm-, criterion-, and curriculum-referenced measures
   b. Evaluating psychometric properties of assessment tools
   c. Screening instruments and procedures
   d. Diagnostic instruments and procedures for eligibility
   e. Evaluation and selection of appropriate test instruments to meet purposes of assessment

III. Current Issues and Considerations in Assessment
   a. Family participation in assessment processes
   b. Assessing family resources, priorities, and concerns
   c. Cultural sensitivity and competence in working with families from diverse backgrounds

IV. Assessment of Developmental Domains
   a. Screening and assessment of sensory/perceptual functions
   b. Assessing cognitive/intellectual development
   c. Assessing motor skills
   d. Assessing communication skills
   e. Assessing social and behavioral competence
   f. Assessing adaptive behavior

V. Curriculum-based Assessment to Plan Education/Intervention Programs
   a. Gathering curriculum-based information
   b. Translating assessment results into meaningful intervention plans
   c. Considerations for implementation of intervention plans

VI. Models of Assessment
   a. Interdisciplinary models and procedures of assessment
   b. Ecological models and procedures of assessment
   c. Transdisciplinary play-based models and procedures of assessment
   d. Writing reports from multiple sources of information gathered in the assessment process

VII. Performance Monitoring
   a. General considerations/guidelines for monitoring child performance
   b. Methods and procedures of monitoring the performance of children with disabilities

VIII. Program and Environmental Accountability
   a. Environmental quality monitoring
   b. Statewide data collection for accountability
Individualized Assignments/Field Experiences

Course assignments are designed to measure each student’s competencies in selecting, administering, and interpreting appropriate assessment measures for infants/toddlers and preschoolers and their families. The following assignments will be completed through a variety of group and independent activities:

1. **Administration of Screening Tool:**
   Students will become familiar with an appropriate screening instrument for assessing an individual infant/toddler or preschooler, administer the screening, and interpret the results. A copy of the screening protocol must be submitted along with a reflection of the process. Instructor will provide the format.

2. **Diagnostic Assessment Tool:**
   Each student will critique a diagnostic instrument designed for an infant/toddler or preschooler and complete a written summary of the tool. Instructor will provide the format.

3. **Curriculum-Based Assessment:**
   Students will implement a curriculum-based assessment with a preschooler along with collecting data from multiple sources (including teacher, therapist, and/or family members), different environments, and during different conditions. Students will translate curriculum-based assessment results into individual learning plans for children. The completed tool along with a written summary of the results and a reflection of the process must be submitted.

4. **Environmental Assessment:**
   Each student will assess the environment of an Early Intervention classroom using the Early Childhood Environmental Rating Scale (ECERS). Additional instructions will be provided.

5. **Transdisciplinary (Play-Based) Arena Assessment:**
   Each student will participate in an arena assessment with a toddler or preschooler. A team, including family member, will be formed to plan, conduct, and evaluate the process. All protocols used will be submitted along with an evaluation report and a reflection of the experience.
Field Experiences and Additional Requirements:

Candidates will be required to complete at least 25 hours of field experiences within this course. Field experiences included in this course support candidates to address unit, state, and national standards. (Initial Certification: Candidates who are completing their initial certification are required to enter both the location and number of field experience hours completed to meet the requirements of this course into Live Text (the e-portfolio system). Live Text is an electronic portfolio that aligns authentic evidence with unit, state, and national standards and is required for progression through and completion of the program of study. This requirement must be completed to earn any credit aligned with field experience assignments. Thus, it is necessary that all initial certification candidates register for Live Text. You should meet with your advisor in your field of study to ensure the appropriate amount of field experience hours are recorded)

Students are expected to attend all classes, read all assignments, and participate in class discussions. Attendance will be considered as part of the student’s evaluation.

Written assignments must be typed. Use of “people first” and current, appropriate language is expected in all written assignments and will be considered in the evaluation of your work. Any assignment turned in late without a prearranged alternative may be dropped 10 points for each day it is late.

The instructor reserves the right to modify course assignments or course outline as deemed necessary.

Grading:

Course grades will be based on the following assignments:

<table>
<thead>
<tr>
<th>Assignment</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
