This class is a survey of Greek and Roman mythology originating from the ancient texts of classical authors. Concentration will be on the multiple functions of myth and their interpretations in both the ancient and modern world. Special attention is directed to visual models depicting classical themes. Greek and Latin terminology and nomenclature will also be introduced. At the end, the student is expected to be familiar with great universal themes of classical mythology, so to be able to identify the mythical model so often serving the structure of so many ulterior literary texts.

Every Monday you will receive the following materials from your professor:

a) An introductory lecture by your teacher.

b) A questionnaire which will cover a couple of Powell’s chapters.

c) A visual model referred to any of the subjects on the studied chapters, for you to comment on it.

Then you will send your answers to your teacher on the following Saturday, no later than 11:00 pm.

Final Grade Policy:

Questionnaires on Powell’s chapters.......................... 40%
Comments on Visuals............................................ 10%
Final Exam (TBA)................................................... 20%
