Catalog Description: Prerequisites BA 2780 & MANG 3401. The nature of information systems and how computers assist management in decision making.   Includes examples in creating and implementing management information systems and an analysis of computer hardware and software.

Learning Objectives: After successfully completing the course students will (1) recognize the value of information systems in business, (2) evaluate and manage the investment in business information systems, (3) understand the issues in developing and maintaining business information systems, and (4) evaluate new information technologies that impact business models.

Attendance Policy: Class participation and attendance is important. Attendance will be taken at each class session and you will interact with other students in class during class discussions. These discussions are an important part of the learning process. You must inform the instructor of the reason for any absence, prior to class. Exams will use a combination of multiple choice and short essay questions.

Academic Integrity: Academic integrity is fundamental to the process of learning and evaluating academic performance. Academic dishonesty will not be tolerated. Academic dishonesty includes, but is not limited to the following: cheating, plagiarism, tampering with academic records and examinations, falsifying identity, and being an accessory to acts of academic dishonesty. Refer to the UNO judicial code for further information. The judicial code is available online on the UNO website at: www.uno.edu/studentaffairs/sa-documents/studentcodeofconduct.pdf

Students with Disabilities: It is University policy to provide, on a flexible and individualized basis, reasonable accommodations to students who have disabilities that may affect their ability to participate in course activities or to meet course requirements. Students with disabilities should contact the Office of Disability Services as well as their instructors to discuss their individual needs for accommodations. Their website is: http://ods.uno.edu

YouTube Lectures: I post recorded lectures each day of the semester to facilitate review of material covered in class. These lectures provide an overview of the material. The recorded lectured do not include in-class discussions. Recorded lectures will be available through an unlisted Youtube link, which will be provided through Moodle. Lectures will stay online for the entire semester.
