

Institutional Animal Care and Use Committee

UNIVERSITY OF NEW ORLEANS

DATE: February 15, 2017
TO: Gerald LaHoste, Ph.D.
FROM: Bernard B. Rees, Chair
RE: *IACUC Protocol # 16-004*
Entitled: Dopamine D1/D2 Receptor Synergism in a Mouse Model of Huntington's Disease

Your application for the use of animals in research (referenced above) has been approved beginning February 15, 2017 and expiring February 14, 2019. The initial approval period is one year. Near the end of this period, you will be asked to complete and submit an annual review in order to continue animal activities.

As described in the memo dated February 8, 2017, the IACUC does **NOT** approve of the use of cocaine in this protocol. The administratively edited copy sent on that date constitutes the work that will be authorized.

The University of New Orleans has an Animal Welfare Assurance on file with the Office of Laboratory Animal Welfare (OLAW), National Institutes of Health. The assurance number is A3299-01.
