Conceptual Framework

Our conceptual framework, the theory-practice-research interaction model, permeates the programs preparing candidates for professional roles in school settings. As candidates progress through their professional studies, they are introduced to formal theories and concepts that are validated by research, which along with their personally held beliefs and assumptions, inform their professional practice. The roles and responsibilities set out the broad domains for developing competence of teacher candidates viewed through the lens of the theory-practice-research interaction model. As candidates engage in various clinical and field experiences included in their program of study, observation and study of professional practices inform and refine the educational theories and concepts they construct. Our goal is to have our candidates internalize the theory-practice-research interaction model, as they develop into reflective practitioners constantly reassessing the educational theories, beliefs, and assumptions they embrace.

Please note that to earn an A-grade, students must score 95% or higher on their final course grade.

NOTE: If on RARE occasions a student is permitted/allowed to earn an “I” grade for a final grade, then the student will have no more than 30 days to correct the problem else the I-grade will automatically convert to an F-grade. In all cases, the I-grade must be resolved before the beginning of the next semester including summer semester. The instructor always reserves the right to not offer this option to students, as per university policy. Please note university policy highly discourages instructors issuing I-grades.

<tr>
<td>(I) <strong>Honor Code Reminder</strong></td>
</tr>
</tbody>
</table>
Students, I'm sure some of you will think this statement is unnecessary. Nevertheless, I want to remind each of you that The University of New Orleans has an Honor Code. Violations of the university's honor code could result in a final grade of "F" in this course and possible dismissal from the university. Most of you will soon become professional educators, teachers. Cheating should certainly be repugnant to you. It should NOT surprise you that a huge fraction of students have or will cheat on one or more examinations. This breach of trust is not only a violation of university rules it's also akin to lying and stealing. Finally, please remember that you could be found guilty of an honor code violation if you knowingly conceal and fail to report a fellow student's honor code violation. Obviously, I take the honor code very seriously, and so should you.

NOTE: Online exams are NOT open book or open note. You are expected to take exams without such assistance. Obviously a violation of this sort is considered cheating.

(II) Professionalism (Dispositions)

Each candidate is expected to behave professionally while conducting field experiences in area pk-12 school classrooms as well as in classes on campus. You will not always agree with everything that is said or discussed in the class discussions or online forums, but courteous behavior and responses are expected. Professionalism is expected; slang, profanity and/or derogatory comments will not be accepted. Coming to class prepared and being ready to participate is expected! This includes all field-work. Please silence all mobile devices prior to class as a courtesy to your classmates. Further behavioral expectations are provided elsewhere.

r. If you have too many writing errors, then instructor reserves the right not to grade your written assignment. Instead, instructor will refer you to the UNO Writing Center for assistance. Remember, you are studying to become a teacher and you must be prepared to write well. If the instructor exercises this option, then student will have one week to meet with the UNO Writing Center staff to get suggestions for improving the assignment and another week to correct and resubmit. If you submit a revised assignment and the writing problems persist, then the assignment will earn an “F” grade and no further opportunities will be given to correct.

Withdrawal Policy – Undergraduate only
Students are responsible for initiating action to resign from the University (withdraw from all courses) or from a course on or before dates indicated in the current Important dates calendar. Students who fail to resign by the published final date for such action will be retained on the class rolls even though they may be absent for the remainder of the semester and be graded as if they were in attendance. Failure to attend classes does not constitute a resignation. Check the dates on the Registrar’s website, http://www.registrar.uno.edu. Please consult The Bulletin for charges associated with dropping and adding courses.

Incomplete Policy – Undergraduate only
The grade of I means incomplete and is given for work of passing quality but which, because of circumstances beyond the student’s control, is not complete. The issuance of the grade of I is at the discretion of the faculty member teaching the course. For all graduate and undergraduate students, a grade of I becomes a grade of F if it is not converted before the deadline for adding courses for credit (as printed in the Important Dates Calendar) of the next regular semester including summer semester.

Repeat Policy
When a student is permitted to repeat a course for credit, the last grade earned shall be the one which determines course acceptability for degree credit. A student who has earned a C or better in a course may not repeat that course unless, (1) the catalog description indicates that the course may be repeated for credit, or (2) the student’s Dean gives prior approval for documented extenuating circumstances.
